

Internet Installation Technician

Cottage Country Internet is looking for an Internet Installation Technician for the summer (May 1st – August 31st). Compensation will depend on experience and qualifications. This position is ideal for students and will include working with others.

Responsibilities:

- Installing and repairing internet services at customer sites.
- Climbing ladders/rooves, mounting equipment, running cables.
- Programming and configuring radios and routers.
- Completing paper work/work orders with details on the install/repair.
- Communicating with customers with regards to work being completed.

Qualifications:

- G2/G class driver's license with a clean record.
- Working at Heights/Fall Arrest training (will be sent for training if candidate does not have it).
- Ability to follow directions and navigate roads.
- Friendly demeanor, good with customer service.
- Good team building skills and ability to work well with others.

Interested applicants please contact via email. People will be contacted if they're offered an interview.

Locations: Haliburton, Muskoka, and Orillia areas.
