

Tower and Installation Technician

Cottage Country Internet is looking for an experienced tower climber for a full-time position. Compensation will depend on experience and qualifications. The position is located in the Haliburton and Muskoka areas and requires driving (in supplied truck) to tower sites and customer homes to install internet equipment.

Responsibilities:

- Installing and repairing internet services at tower sites and customer residences.
- Climbing towers, ladders/rooves, mounting equipment, running cables.
- Programming and configuring routers and radios.
- Communicating with customers with regards to work being completed.
- Completing paper work/work orders with details on the job.
- Tracking inventory on the truck.
- Tracking mileage on the truck.
- Following directions to sites/navigating.
- Climbing towers in hot, cold, or buggy environments is a requirement (appropriate equipment is available for these conditions).

Qualifications:

- G Class driver's License with a clean record.
- Working at Heights/Fall Arrest training.
- Friendly demeanor, good with customers.
- Good team building skills and ability to work with others.

Interested applicants please contact via email. People will be contacted if they're offered an interview.

Locations: Haliburton, Muskoka, Orillia, Georgian Bay areas.
